

Oxus America Commercial Terms and Conditions, Core Return Policy and Warranty/RMA Policy

Commercial Terms and Conditions:

- Standard payment terms are Net 30. Cash in advance may be required for new customers.
- Incoterms are Ex Works (EXW). Oxus will arrange shipments on behalf of customer unless otherwise specified by customer. Arrangement of shipments by Oxus does not modify the Ex Works designation.
- Pricing, availability, and lead times are dependent on return of valid cores (as applicable).
- All returns of product sold to the customer (excluding warranty returns) must first be approved by Oxus and are subject to a 25% restocking fee.
- Orders that require core returns are subject to the terms of the Core Return Policy below.
- Warranty replacement of Oxus products is subject to the terms of the Oxus America Warranty/RMA policy below.

Core Return Policy:

- All Oxus refurbished parts require a core return. Pricing for refurbished parts is inclusive of the receipt of an acceptable core within 4 weeks of shipment of order. An acceptable core is defined on the product instructions.
- Timely return of cores is essential to maintain continual flow of refurbished parts. Oxus will credit customer core balance for each acceptable core received. Oxus performs regular core balance audits and will report balances on a regular basis to the customer. Core balance reports are sent out monthly and are available on our Customer Portal @ portal.oxusamerica.com to download at any time.
- In the event of an ongoing customer core shortage, Oxus may require receipt of a core prior to manufacturing and shipping a refurbished part and/or invoice customer for unreceived core returns.
- Oxus routinely reviews and re-evaluates customer core balances. For products currently in production, Oxus may reset customer core balance for cores that have gone unused for 6 months or more.
- Cores consist of any original OEM parts and/or any out-of-warranty Oxus refurbished parts only. Damaged parts should not be returned as cores. Unacceptable cores will not be credited toward core balance.
- Cores should be sent back to Oxus in the same packaging, or in packaging approved by Oxus with like model parts packaged together. Cores damaged in transit due to improper packaging will not be credited toward core balance.
- Upon receipt of a core, Oxus will determine if the core is acceptable.

- Core Return Instructions:
 - North American Customers: Ship all Core returns shipped to: Oxus America, Inc., 175 Kay Industrial Dr. Orion Twp., MI 48359
 - Continental European Customers: All core returns require a “CORE RMA” and are to be shipped to the Oxus Logistics hub, unless prior arranged and agreed upon. Please see Appendix 1: “Core Return Process – EU Shipments ONLY” for detailed instructions on requesting a CORE RMA and for shipping information.
 - UK Customers: All core returns require a “CORE RMA” and are to be shipped to the Oxus Logistics hub, unless prior arranged and agreed upon. Please see Appendix 2: “Core Return Process – UK Shipments ONLY” for detailed instructions on requesting a CORE RMA and for shipping information.
 - All other regions: Inquire with Oxus Customer Service

Warranty/RMA Policy

- An RMA (Return Materials Authorization) number is required to return a product to Oxus America for repair, credit, or replacement. Prior to return of warranted product, contact Oxus America through our designated Customer Portal to initiate an RMA (must include serial number and description of the problem).
- If covered under warranty, as detailed below, Oxus America will generate and provide an RMA number. The Oxus RMA number represents acknowledgment for return and tracking of product and does not guarantee warranty replacement.
- RMA requests designated by customer as an “out of box” failure must be received by Oxus no later than 60 days from the original ship date to customer. An “out of box” failure is a part found to be defective by the customer prior to use in the field.
- Customer must include the RMA number on all shipping documentation and identify RMA number on the outside of shipping container. Product damaged in shipment due to improper packaging will not be covered.
- Warranty return product must be shipped separately from core return product.
 - For Europe and UK Customers: Oxus will provide you with warranty return shipping instructions at time of your initial warranty RMA Request.
- RMAs will remain open until the unit is received and processed. If a unit is not received within 30 days of RMA issuance, and a minimum of one notice requesting status of the product is documented as having been sent to the customer, the RMA will be closed.
- In the event a warranty return is rejected by Oxus, product will convert to core status and be credited towards core balance.
- Customer is responsible for the cost and risk of loss for shipping warranty RMA returns to Oxus. If Oxus determines failure to be covered under warranty, Oxus will be responsible for shipping of repaired or replaced part to customer.

- All Warranty RMA returns instructions:
 - North American Customers: Ship all Warranty RMA returns shipped to: Oxus America, Inc., 175 Kay Industrial Dr. Orion Twp., MI 48359
 - Europe, UK Customers: Oxus will provide you with warranty return shipping instructions at time of your initial warranty RMA Request. All other regions: Inquire with Oxus Customer Service
